POs describe what students are expected to know or do at the end of the program or program phase. The POs are intended to guide the curriculum development process.

Program Outcome (PO)	Description
PO1	Apply their knowledge, skills, and understanding of the core pharmacy knowledge domains with the principles of learning, teaching, and learning outcomes to design, develop, and implement the curriculum and instructional materials.
PO2	Plan, develop, and implement effective learning activities, including the selection, design, and delivery of instructional materials, and the use of technology to enhance the learning experience.
PO3	Evaluate and critically analyze learning problems and design solutions, using professional judgment, evidence-based practice, and quality assurance and improvement processes to enhance the learning experience.
PO4	Monitor and evaluate the quality of their own and others' professional performance, and engage in continuous improvement efforts, including self-reflection and peer review, to enhance their own and others' professional performance.
PO5	Lead and participate in professional and social responsibilities, including participation in professional organizations, community service, and leadership roles in the profession to enhance the quality of the profession and the public good.
PO6	Develop and implement the program to be a leader in the profession, as well as the use of evidence and quality assurance processes to enhance the learning experience and the quality of the profession.
PO7	Develop and implement the program to be a leader in the profession, as well as the use of evidence and quality assurance processes to enhance the learning experience and the quality of the profession.
PO8	Develop and implement the program to be a leader in the profession, as well as the use of evidence and quality assurance processes to enhance the learning experience and the quality of the profession.

## COURSE OUTCOME OF HUMAN ANATOMY AND PHYSIOLOGY

Sub: Human Anatomy and Physiology    Year/Sem: I-I    A.Y: 2019-20    Code:PS101	
1	Know the gross morphology of cells and tissues was involved in the formation of organs and its different functions in human body.
2	Get knowledge on different parts , composition and its functions of skin, skeletal system and joints .
3	Get knowledge on cellular composition and non cellular compositions of Blood and how it is involved in oxygen and carbon dioxide transport, maintenance of B.P, defense immunity and excretion.
4	Have knowledge on parts and functions of nervous system and special senses, their coordination in regulation of homeostatic mechanisms and their imbalances.
5	Have knowledge on external and internal characters of Heart and blood vessels maintain BP, transport gases, nutrients and waste products. Their function is essential to sustain life.

## COURSE OUTCOME OF INDUSTRIAL PHARMACY-I

Sub: Industrial Pharmacy-I		Year/Sem: III-I	A.Y: 2019-20	Code: PS502
1	Know the various pharmaceutical dosage forms and their manufacturing techniques.			
2	Know various considerations in development of pharmaceutical dosage forms			
3	Formulate solid, liquid and semisolid dosage forms and evaluate them for their quality			
4	Know very well about orally administered solid dosage forms (Tablets, capsules and pellets) and liquid dosage forms (syrups, elixirs, suspensions and emulsions) with standard protocols.			
5	Know very well about novel drug delivery systems like parenterals, ophthalmic preparations and pharmaceutical aerosols with standard protocols.

## ATTAINMENT OF COURSE OUTCOMES

Assessment Process adopted for attainment of course outcomes for various courses:

### Tools used for assessment:

**Marks allocation by university:** The division of marks given by university and weightages in arriving at the attainment of CO are given below. The CO assessment is carried out through CIE and SEE with the following proportions.

**Table: Weightage of Marks for CIE & SEE**

Type of Course	Internal Marks (CIE)	External Marks (SEE)	Total Marks	Net CO attainment level as per weightage
Theory	25	75	100	0.25*CIE level + 0.75* SEE level
Laboratory	25	75	100	0.25*CIE level + 0.75* SEE level
Seminar / Practice School	25	75	100	0.25*CIE level + 0.75* SEE level
Industrial Oriented Mini project	25	75	100	0.25*CIE level + 0.75* SEE level
Mandatory Course	100	-	100	CIE level

Based on combined marks (i.e. CIE+SEE) obtained by the candidate letter grades are awarded as shown below and corresponding grade points are also shown in the table

**Table: Letter Grades with respect to academic performance**

% of Marks Secured in a Subject/Course (Class Intervals)	Letter Grade (UGC Guidelines)	Grade Points
Greater than or equal to 90%	O (Outstanding)	10
80 and less than 90%	A <sup>+</sup> (Excellent)	9
70 and less than 80%	A (Very Good)	8
60 and less than 70%	B <sup>+</sup> (Good)	7
50 and less than 60%	B (Average)	6
40 and less than 50%	C (Pass)	5
Below 40%	F (FAIL)	0
Absent	Ab	0

**Frequency of data collection:**

The data required for calculating attainments is to be gathered. Each course instructor maintains the data required like internal marks MID wise and external marks of their respective course. The frequency of data collecting for each assessment tool is shown in a table.

**Table: Data Frequency**
